

Cambridge university

**Performed by the lecturer of English
Galina Rodionova**

Cambridge university

- University of Great Britain, one of the oldest (second after Oxford) and the largest in the country.
- The official status of the university is a privileged charitable institution. Funding consists of a state educational grant, student / graduate student contributions, donations from charitable foundations, Cambridge University Press publishers' income, «Russell» group grants, and some other sources.

Story

- The university grew out of a collection of scientists from the city of Cambridge, which was formed (judging by the chronicles) in 1209 by scientists who left the city of Oxford due to the fact that an Oxford student killed a resident of the city.
- According to other sources, it arose as a result of the educational program of monastic orders of the Middle Ages. In 1214, formal university rules were drafted. A rector and a program with exams at the end were appointed for them. The main difference between universities and monasteries was the teaching of science, philosophy, logic, and mathematics.

Famous Graduates

Isaac Newton

English physicist, mathematician, mechanic and astronomer, one of the founders of classical physics.

Lord E. Rutherford

British physicist of New Zealand descent. Known as the “father” of nuclear physics.

Francis Bacon

English philosopher, historian, politician, founder of empiricism and English materialism.

J. R. Oppenheimer

American theoretical physicist. Oppenheimer is often called the "father of the atomic bomb."

St. Lewis

British, Irish writer, poet, teacher, scientist and theologian.

N. Bor

Danish theoretical physicist and public figure, one of the creators of modern physics.

Cost of education

- In the 2011-2012 academic year, the cost of training for foreign students was £ 11829 for subjects of the 1st and 2nd groups (archeology and anthropology, economics, pedagogy, law, linguistics, mathematics, political science, psychology and others), £ 15,480 - for items of the 3rd group (architecture, geography, music), £ 18000 - for items of the 4th group (engineering, computer science, management and others), £ 28632 - for items of the 5th group (medicine and veterinary medicine). It should also be borne in mind that once a year it is necessary to pay a university fee (College fees) - from £ 4400 to £ 5800. The cost of living for international students is around £ 8,000 per year.

At Cambridge University come people with distinctive qualities and a well-built mind. Each student receives a quality education and has great prospects in the future.

Students

Thanks a lot
for your
attention!
